MOD/AMD 02

Name of Offeror or Contractor: MIL-MAR CENTURY CORP

SECTION A - SUPPLEMENTAL INFORMATION

1. The purpose of this Modification 02 to DAAE07-01-D-B001/0003 is to add a new requirement for facilitization (with pallet racks and shelving) of the Auburn, Washington GSA warehouse facility, Warehouse #1, Bay 3.

2. The contractor shall procure and install new seismic rated Pallet Racks and Shelving in accordance with the specifications shown below. Contractor is responsible for all installation in accordance with local building codes, scheduling workflow, labor, materials, transportation and supervision. Contractor is required to coordinate with the GSA facility, Auburn, Washington for facility access. Contractor shall also coordinate with Thomas Mulcahey, COR, (253-966-4850) to obtain a start of work date for this requirement. Contractor shall ensure that workforce complies with security directives and policies of the GSA facility Auburn, Washington and shall immediately replace any worker removed by the security manager, GSA facility, Auburn Washington at no cost or schedule delay to the Government.

SPECIFICATIONS:

All racks will conform to the following specifications:

All racks will be 20 feet high

All racks will be 44 inches wide with wire decking.

All racks will have offset pallet Backstops; common Backstops may be used for rack systems which are back to back.

All racks will have 8 foot Beams with a minimum capacity of 6,000 pounds per level.

All racks will have five (5) levels, space at 4 feet apart, not including the floor.

All Beams will be secured to the uprights using clips or bolts.

All uprights to be secured to the floor per manufacturers and code requirements AND seismic rated for zone III.

The total quantity of racks to be 228 sections, which equates to 2,280 pallet stations, not including the floor.

The contractor will also be responsible for providing any installation equipment such as a fork lift, scissors lift, etc. NO equipment will be available from the current residents of Bays 1 & 2.

The contractor will submit a certification of Seismic III rating within four days (4) upon placing the purchase order with their subcontractor.

GUARANTEES/WARRANTIES:

All Warranties and or Guarantees for the equipment and installation shall pass directly from the supplier to the government.

SEISMIC CALCULATIONS:

Should the same rack manufacturer, same product be utilized as was installed previously in Bay 2, NO engineering calculations will be required. If the product changes (part number, model, etc.), or the manufacturer changes, then new engineering calculations will be required to support the product for a Seismic III rating. Regardless, a certification stating that the racks and the installation will comply with the Seismic III rating will be required.

3. This Modification 02 is subject to all the terms and conditions of Contract DAAE07-01-D-B001/0003, unless otherwise stated herein, and is in accordance with the contractor's revised quote dated 14 April 2004.

4. The period of performance under this delivery order is from date of award through 30 July 2004. Acceleration of work is allowable and desirable at no additional cost to the government.

5. As a result of this Modification 02, the total amount of Delivery Order 0003 to Contract DAAE07-01-D-B001 is increased by \$203,170.

6. Except as specifically stated above, all other contract terms and conditions remain unchanged and in full force and effect.

*** END OF NARRATIVE A 003 ***
