Brigade Combat Team
Project Management Office

WE WILL ROLL OUT THE NEW BCT PRODUCTION IDE ON 14 APRIL 2003.

Every appropriate effort has been made to assure that this transition goes as smoothly as possible. Here are a few helpful facts to help you be prepared for this transition....

IFS DOCUMENT MANAGEMENT SYSTEM TO BE UNAVAILABLE DURING 10-13 APRIL 03

In order to accommodate the roll out of the new BCT Production Integrated Digital Environment (IDE), we must deny access to the iFS document management system from noon on 10 April 2003 – 13 April 2003. You will be able to access the public website, but the PORTAL areas (also known as the private website) will be unavailable during this time period. It is essential that we make this restriction and hope this will only be a minor inconvenience. Please plan to accommodate this brief period of restriction. Full IDE capability will return 14 April 2003 at 0600 hours. The new URL will be: <https://www.bctide.army.mil/>

- All of your data will be there, just as it was on 11 April 2003 - safe, secure, and intact.
- Your username and password will not change
- All user interface screens will be the same

THE NEW BCT IDE URL

<https://www.bctide.army.mil/>

Even if you use the old URL, you will be automatically redirected to the new URL location. Please be sure to bookmark this new URL or update your existing favorites.

FOR NEW USERS

This is especially for those that have never used the BCT IDE. Trust us when we say that it could not be easier for you to start using the BCT IDE.

- A new BCT “IDE User Account Form” and the “BCT IDE User Manual” will be available at: <https://www.bctide.army.mil/downloadpagespublic/downloadpublic.shtml>
- Need Help? Just call the IDE Help Desk to arrange for a one-on-one mentoring session to cover any question that you may have regarding getting started or developing a solution specific to your needs.
